

# Cassie Steele, Blue Bird

As I swim mermaids dance with me  
And I drown they romance with me  
They sing sweet little harmonies  
Louder and louder until I can't breath  
Hey blue bird on my shoulder  
Can you carry me over?  
I talked to blue bird, she said why walk when you can fly?  
She told me, baby life tastes better when you're high  
I said hey blue bird can you take me for a ride  
Leave me on a cloud, ill live with blue birds in the sky  
As I walk I can feel the heat  
As it burns I can smell the sweet  
Piece by piece I am yours to feast  
All this pain is seducing me  
Hey blue bird on my shoulder  
Can you carry me over?  
I talked to blue bird, she said why walk when you can fly?  
She told me, baby life tastes better when you're high  
I said hey blue bird can you take me for a ride  
Leave me on a cloud, ill live with blue birds in the sky
