

Cassie Steele, Rock Star Beau

Oh happy day
I met a rockstar beau
Took my breathe away
tall and thin, chain smokes
Never though I'd find someone quite like you
Can't believe you're mine
Made all my dreams come true
'Cause he's my sugar baby rockstar
Plays our love song on the guitar
He rock and rolls it like the devil
And kisses me like heavy metal

[Chorus]

My rockstar beau
Rocks it all night long
After every show
He comes and turns me on
My rockstar baby
You complete my soul
Promise you'll never leave me
I love your
Rock n Roll, Rock n Roll
Oh a happy day
I think I fell in love
The way he moves on stage
I just can't get enough
And I know my heart will stay safe with you
We won't ever part until bodies move
'Cause he's my sugar baby rockstar
Plays our love song on the guitar

[Chorus]

Rock n Roll, Rock n Rock n Rock n Roll
Oh happy day
I think I fell in love
The way he moves on stage
I just can't get enough
My rock star beau
Rocks it all night long
After every show
He comes and turns it on
My rock star baby
You complete my soul
Promise you'll never leave me
I love your...

[Chorus]
