

Cassie, Turn Off The Lights

I'm not afraid
Afraid of the dark
So turn the lights off

All I need is a DJ and a whole lotta noise (oh)
A dance floor that's packed
With fly girls and a whole lotta boys (oh)

We goin up down back forth
Right to the rhythm
Seem like I always get the feelin
Any time they turn the lights off

Be my guest
Cause when the lights off
I'm in my best
So turn the lights off
I'm not afraid
Afraid of the dark
Afraid of the dark
So turn the lights off

We can get closer
We can get closer
We can get closer
If we just turn the lights off
We can get closer (I'm not afraid)
We can get closer (Afraid of the dark)
We can get closer (Afraid of the dark)
If we just turn the lights off (So turn the lights off)

Just get me in a corner
And I'll do my dance (oh)
And if your nice
You can do what you wanna
Do with your hands (oh)

We goin up down back forth
Right to the rhythm
Seem like I always get the feelin
Any time they turn the lights off

Be my guest

Cause when the lights off
I'm in my best
So turn the lights off
I'm not afraid
Afraid of the dark
Afraid of the dark
So turn the lights off

We can get closer
We can get closer
We can get closer
If we just turn the lights off
We can get closer (I'm not afraid)
We can get closer (Afraid of the dark)
We can get closer
If we just turn the lights off

You can tell from how I walk
We don't need no talk

I ain't afraid of the dark
We don't need no more

I, I, I'm looking for you

We goin up down back forth
Right to the rhythm
Seem like I always get the feelin
Any time they turn the lights off

Be my guest
Cause when the lights off
I'm in my best
So turn the lights off
I'm not afraid
Afraid of the dark
Afraid of the dark
So turn the lights off

I'm not afraid
Afraid of the dark
Afraid of the dark
So turn the lights off
