## Cassie, Turn Off The Lights

I'm not afraid Afraid of the dark So turn the lights off

All I need is a DJ and a whole lotta noise (oh) A dance floor that's packed With fly girls and a whole lotta boys (oh)

We goin up down back forth Right to the rhythm Seem like I always get the feelin Any time they turn the lights off

Be my guest
Cause when the lights off
I'm in my best
So turn the lights off
I'm not afraid
Afraid of the dark
Afraid of the dark
So turn the lights off

We can get closer
We can get closer
We can get closer
If we just turn the lights off
We can get closer (I'm not afraid)
We can get closer (Afraid of the dark)
We can get closer (Afraid of the dark)
If we just turn the lights off (So turn the lights off)

Just get me in a corner And I'll do my dance (oh) And if your nice You can do what you wanna Do with your hands (oh)

We goin up down back forth Right to the rhythm Seem like I always get the feelin Any time they turn the lights off

Be my guest

Cause when the lights off I'm in my best
So turn the lights off I'm not afraid
Afraid of the dark
Afraid of the dark
So turn the lights off

We can get closer
We can get closer
We can get closer
If we just turn the lights off
We can get closer (I'm not afraid)
We can get closer (Afraid of the dark)
We can get closer
If we just turn the lights off

You can tell from how I walk We don't need no talk

I ain't afraid of the dark We don't need no more

I, I, I'm looking for you

We goin up down back forth Right to the rhythm Seem like I always get the feelin Any time they turn the lights off

Be my guest
Cause when the lights off
I'm in my best
So turn the lights off
I'm not afraid
Afraid of the dark
Afraid of the dark
So turn the lights off

I'm not afraid Afraid of the dark Afraid of the dark So turn the lights off
