

Cast, Live The Dream

I'm so lonely, I just got to let you know

And I got to let you

If you'd only look, you hold the key to show

I've got to let you, I've got to let you know

That, I'm so lonely, I've just got to let you know

And I've got to let you

Take me to the places that I need to go.

I've got to let you

I've got to let you know, know, know, know, know, know, know, know, know

Chorus:

If you don't know

If you don't see my face - calling you back

If you don't hear, you hear my voice

If you don't see my face - calling you back

Calling you back

I'm so lonely, I just got to let you know

I've got to let you

If you'd only see, you'd let the feeling grow

Just let the feeling

Just let the feeling grow, grow, grow, grow, no, no, no, no, no

Chorus:

Calling you back (repeat)

What can I do?
