

# Cast, Never Gonna Tell You What To Do (Revolution)

Chorus:

Never gonna tell you what to do  
Take the best of you - tell you what to say  
Try and show the way, you've got to make it yours today  
If it gets you on your way

See it don't matter - I'll find my own way home  
You better do what you can  
You're trying - but what can a poor boy do  
We're hoping, the best that you can  
We're wishing, hopin' and a prayin' now that  
You've landed back on your feet  
You're gonna, rise from the ashes boy  
You're gonna rise from the street

Chorus:

(Musical Interlude)

When you get the chance, take it with both hands  
Make it yours today, it might pass away  
Dream yourself a dream, show me what you've seen  
Take me where you've been, Life, I need a dream  
La la la la, la la la la la, la la la la  
(repeat from beginning of song)  
La, la, la, la, la la la la  
Tell me what to do, tell me what to say (repeat)
