Time to rise
They stole our music i'm always drunk
They stole our clothes i'm always tired
But couldn't steal these working man songs
You can keep your shitty tour
You can keep your dance shit
But you'll never get these working man songs
Pop fucking stars glam fucking metal
Their emo shit they'll never feel it
They don't know what is needed
These days times and days, what we need
Is more working man songs
Up the punks for working man songs
Over thirty years buffering
Calling me a poser i'm still here
Living, screaming, working man songs
Get it in your head it's my life
In it for life i'm in it for life
Punk rock songs working man songs
All right.
