

Cat Stevens, Come On And Dance

I take you out all over town
But you always start sittin' down
You never move, baby whats wrong with me?
When we go dancin' , you're just there like a tree

Baby come on and dance, you're holding me back
I've gotta get out this feeling, before i go mad
You gotta let me in, the music's getting me now
You gotta come on and dance, stop hangin around

I don't care if you twist or jive, just as long as you're lookin' alive
You'll make me glad, baby you'll make me rise,
I wanna see that twinkle in your eyes

Baby come on and dance, you're holding me back
I've gotta get out this feeling, before i go mad
You gotta let me in, the music's getting me now
You gotta come on and dance, stop hangin around
