

# Cataract, March With Your Battleforce

Take down your tyrannic mask and speak out your leadership  
The total reign you're seeking for, for full control you're reaching out  
Running over civil life, use your mighty warriors  
To take it all with your list, march with your battleforce  
Unifying goatherd beasts running infested demons  
Paralyzing truths and rights in frozen dust you spilled the blood  
Running over civil life, use your mighty warriors  
To take it all with your list, march with your battleforce  
March with your battleforce
