

# Catch 22, Chin Up

Close your eyes real tight  
underneath the city lights  
You can't hear the noise below your room  
take a real deep breath  
get those feelings off your chest  
We'll Work it out and wake up in each others arms

Underneath its never over  
looking back over my shoulder  
looking back over my shoulder  
underneath its never over  
we always said we'd meet again  
when we were ten years older

I hadn't thought about her in a while  
until she showed up in a dream i had  
laying listless in a bed  
with a string of broken hearts  
hanging from her fingers  
I said, &quot;lets take a drive with a pack of camel lights  
into the middle of nowhere and talk about our lives

hear me say, listen up. Silence, Can't let it go, got to get it out  
listen up, silence, can't let it go, got to get it out  
chin up chin up till it touches the moon, sad and forsaken one  
its you i'm talking to

You can't take it back?  
You can't take it back?  
Thats bullshit  
I took it and crushed it and painted it black  
I swallowed the match  
its burning at my insides

hear me say, listen up. Silence, Can't let it go, got to get it out  
listen up, silence, can't let it go, got to get it out  
chin up chin up till it touches the moon, sad and forsaken one  
its you i'm talking to

listen up. Silence, Can't let it go, got to get it out  
listen up, silence, can't let it go, got to get it out
