

# Catherine Wheel, Black Metallic

I've never seen you when you're smiling  
It really gets under my skin  
You say it's easy when it's faster  
I still can't guess what you're after  
It's the colour of your skin  
Your skin is black metallic  
It's the colour of your skin  
Your skin is black metallic  
Your skin is black metallic  
Your skin is black metallic  
I think of you when you're sleeping  
Of all the secrets that you're keeping  
You can't stay all day under the covers  
'Cause under there you'll discover  
It's the colour of your skin  
Your skin is black metallic  
It's the colour of your skin  
Your skin is black metallic  
Your skin is black metallic  
You're turning black metallic...  
It's the colour of your skin  
It's the colour of your skin...  
Your skin is black metallic  
Your skin is black metallic  
Your skin is black metallic  
You're turning black metallic  
It's the colour of your skin  
Your skin is black metallic  
Your skin is black metallic  
Your skin is black metallic  
Your skin is black metallic  
Your skin is black metallic  
Your skin is black metallic
