Cathy Dennis, It's My Style

Straight to the limit I'm flyin' in the sky Don't wanna lose this feeling

Don't want calm the fire

Kepp on movin' on

No other lover can move me

The way that you do Keep on movin' on

No other lover can thrill me

Like you

Cos baby

It's my style and nothing gonna changeit

It's my style that's all I wanna say

It's my style and nothings gonna change it

You're the reason I can feel this way

Straight to the limit

I'm flying in the sky

Sensational feelings

Nobody can deny

Keep on moving on

No other lover can move me

The way that you do

Keep on moving on

No other lover can thrill me

Like you

Cos baby

It's my style and nothing gonna changeit

It's my style that's all I wanna say

It's my style and nothings gonna change it

You're the reason I can feel this way

It's my style and nothing gonna changeit

It's my style that's all I wanna say

It's my style and nothings gonna change it

You're the reason I can feel this way

Why is it that today

My world seems clearer

Why is it that today

My dreams seem nearer

Keep on moving on

No other lover can move me

The way that you do

Keep on moving on

No other lover could thrill me

Like you

Cos baby

It's my style and nothing gonna changeit

It's my style that's all I wanna say

It's my style and nothings gonna change it

You're the reason I can feel this way

It's my style and nothing gonna changeit

It's my style that's all I wanna say

It's my style and nothings gonna change it

You're the reason I can feel this way

It's my style and nothing gonna changeit

It's my style that's all I wanna say

It's my style and nothings gonna change it

You're the reason I can feel this way

It's my style and nothing gonna change it
