

Cathy Dennis, Love Is

There's no illusion
When I close my eyes
I dream of you
Dream of you
Outside the rain
Is bringing tears and pain
Why should I care
I have you
They ask me what it is
Filling me with pride
(So much pride)
Time has told
It's a good man's heart
And the feeling he leaves
In side
And I believe that love is
Love is the strength I feel
Love can change life
From dreams to real
I learned the knowledge
Of a hundred years
To find a way
Till you came
Still nothing made me feel as good inside
As all the love that you gave
They ask me what it is
Driving every day
(Every day)
Time has told
It's a good man's heart
Taking care of me
All the way
And I believe that love is
Love is the strength I feel
Love can change life
From dreams to real
Love is
Love is
My king uncrowned
Love is
Holding this joy I've found
Through time
And with no doubt
His joy was
Made mine
To bring your love all around
Love
Love
Love is
Love is
The strength I feel
Love can
Change life from dreams to real
Love is
Love is
My kind uncrowned
Love is
Holding this joy I've found
Love is
Love is
