

Cathy Dennis, Move to This

Move to this

The way that you walk, the walk of a king

The way that you look, oh, you tell me something

The way that I feel, oh, baby, I want you, you

So send me a sign sealed with a kiss

Don't wait in that line or you're gonna miss

The chance of your life to do something good, so good

We could be sharing a little bit of Heaven

If everything goes our way

If you can do it like I want you do it it, baby

Love is on its way

Move to this, if you wanna be my lover

Move to this, if you wanna be my everything

Move to this, if you wanna be discovered

Move to this, if you wanna be my special thing

The look in your eyes is teasing my heart

Just look at my love, ooh, it's raring to start

So send me a sign and capture my soul, soul

We could be sharing a little bit of Heaven

If everything goes our way

If you can do it like I want you to do it, baby

Love is on its way

Move to this, if you wanna be my lover

Move to this, if you wanna be my everything

Move to this, if you wanna be discovered

Move to this, if you wanna be my special thing

We could be sharing a little bit of Heaven

If everything goes our way

If you can do it like I want you to do it, baby

Love is on its way

Move to this, if you wanna be my lover

Move to this, if you wanna be my everything

Move to this, if you wanna be discovered

Move to this, if you wanna be my special thing

Move to this, if you wanna be my lover

Move to this, if you wanna be my everything

Move to this, if you wanna be discovered

Move to this, if you wanna be my special thing

Move to this, if you wanna be

Move, if you wanna be

Move to this, if you wanna be
