Cattle Decapitation, Testicular Manslaughter

Perpetual multiplier Procreating bastard

Ever had your gonads smashed by a ball-peen hammer?

Ever been forced into a vasectomy by and axe-wielding homovore?

Do you know the word pain?

You will when the mallet falls

Again and again and again:

I've a shotgun aimed at your testicles

To shred your testes and sever adjacent vesicles

Cold vengeance on a rapist

Immediate testicular shape-shift

Your manhood disintegrates and the stream starts to flood

A shimmering mix of spermatozoa and blood

Another human off the face of the earth!

A new vagina to replace it's absence of girth

It rubs the feces on it's skin

Or else it gets the hammer again:

Torture

Through blunt castration

Slaughter

Repeated testicular emaciation

For your gross misconduct

The tables are rightfully turned

The urethra now a bile duct

The frayed ends of karma are burned

A gaping gash of reproduction

Seminal waste of testosterone that ceases to function

Asexual freak . No longer of the male persuasion

Your miserable heap of disfigurementation

Brings thousands of victims vengeance and elation

Sulfur and buckshot, decimating your crotch
