

# Cauterize, Don't Stop Now

God I love that sound  
You know it drives me wild  
How I need your laugh  
Addicted to your smile  
Now I crave those lips  
And the way that they kiss  
You give me something to miss  
Pull me in close  
Don't let me go  
I'll try to run cause it's all I know  
But here I am show me how  
Whatever this is don't stop it now  
Tell me this will always feel brand new  
Again and again like a beautiful flower in bloom  
Tell me this will always feel like this  
Over and over don't blink cause you might miss  
With the softest touch  
You got me shiverin'  
Tease me with your skin  
Come on let me in  
Shut the bedroom door  
Take me on the floor  
You got me begging for more  
I'm not sure what this is  
But I think I like it  
I really think I like this  
Whatever this is don't stop it now  
I can taste it  
As the sweat falls from your neck  
And the perfume leaves a sting I won't forget  
As you're sliding back into you dress  
I become a nervous wreck  
Cause I'm waiting patiently to see  
If you'll be leaving me  
You'll be leaving me
