

Caviar, Looked So Hard I Nearly Wrecked My Eyes

So you spread yourself around it
Mondays from here out
Heard it was like hell on you
Got tired of finding out
Who will take this shit like I did
Get beside the bed
Burning out and thinking, hating
You when you spoke French
There's no star shining
Took all the time we both knew why
Need time on your own
But you'll never sleep alone
Gone gone, my my
I looked so hard that I nearly wrecked my eyes
No more blue skies
I looked so hard that I nearly wrecked my eyes
So to death, superstition, yeah
Just say we can't be set
Disconnected telephone
Came riding on my head
There's no star shine
Took all the time we both know why
You need time on your own
But you cannot sleep on your own
Gone gone, my my
I looked so hard that I nearly wrecked my eyes
No more blue skies
I looked so hard that I nearly wrecked my eyes
Gone gone my my
I looked so hard that I nearly wrecked my eyes
No more blue skies
I looked so hard that I nearly wrecked my eyes
