Get Into My Life
Walking in
Walking out
Walking into my life
Stepping in
Stepping out
Stepping into my life

You can do what you want
But get into my life
Alright, alright, alright

Every single morning
I get on up and do my thing
Work for my money
But with you, I could go insane
Oh yes I, I've been on my way
My friends all say I'm crazy
But I just can't break away
So come on

Get into my life
I need you now
Come, step into my life
Don't tear me down
You walk in, you walk out
Girl you do waht you like
Stepping in, stepping out
Get you into my life
