This Love Is Real
It's 3 AM and I'm wondering
Wondering about you and
Where you might be
We said some things
Some foolish things
Now all I really want is

Life has no meaning without you
When there's no sharing
There's no truth
I know you hurt inside
So come on Baby back
Back home to me

Cause there's nothing gonna
Stop me loving you baby
Nothing gonna stop you
Driving me crazy
Nothing gonna stop the way
That I feel
Cause I know this love is real

You and me were meant to be
Like the sun and moon
The stars and the sea
But now and then we loose again
The dream of you and me and
All we could be

Love isn't easy but it's true
You know the one I love is you
And it's just a matter of time
So come on Baby back
Back home to me
