CDB, Hey Girl

CDB
Hey Girl
Hey Girl
how long must i wait,
to make you see
girl when im close to you,
theres no place i'd rather be
The warmth of your smile warms me like the sun
you erase my cloudy days,
your the only one

chorus
hey girl, this is our time
ill never do you wrong, i'm not that kind of guy
hey girl, this is our time
i'll give you everything
if you wear this ring, everything will work out fine
girl when i close my eyes, your all i ever dream
your style, your looks, your charm, your personality
no im not like the other guys i won't treat you wrong
right here with me, baby you'll see thats where you belong

chorus
hey girl this is our time
i'll never do you wrong, im not that kind of guy
hey girl, if you were mine
i'll give you everything, everything is gonna work out fine
