You disappeared
Into thin air
Went up in smoke
And now you're here

It's not about
Helping you out
No psycho-tool
Will ever do
Just come on out of your piggysty and explore

You disappeared I know that it's about
Into thin air I couldn't help you out
Went up in smoke I know that it's about
And now you're here I couldn't help you out
Come on out of your piggysty and explore

Come on out of your piggysty and explore

Had a dream tonight where you were walking in my room
Jumped up tried to hit the light but I fell right through the floor
Something told me I would never find you anymore
What a scary feeling to be left here all alone
Had a dream tonight and it was wrong

Come on out of your piggysty and explore
