

CeCe Peniston, All That I Need

CeCe Peniston
Miscellaneous
All That I Need
Another day another trouble
I just wanna give in
When things seemed right
They just went wrong
Have I been hoping for too long
Once or twice I've been beaten down
And my face been kicked around
Sometimes I felt I wanted to scream

What I need, what I need
Was to change my situation
Find a new direction
As tough as it seems
What I need, what I need
Was to focus my intentions
Pick up the pieces
And build build back the dream

CHORUS:
Because I believe that's all that I need
The strength and devotion is all that I need
And I, I'll be all that I need
And I'll hold me head up high that's all that I need
And reach for the sky that's all that I need
And I, I'll be all that I need

I'm learning how to stand tall
I'm learning to break down these walls
I owe part of myself to you
You're the one who helped see me through

What I need, what I need
Is the strength that you give me
Helped me see completely
Opened my eyes
What I need, you and me
We can learn from each other
Take part in one another
In building our dreams

CHORUS

Because I believe that's all that we need
To stand together is all that I need
And pride, pride is all that we need
And a little trust is all that we need
And faith in us is all that we need
And I know love, love is all that we need
