

# CeCe Peniston, I'm in the Mood (East 87th St. Mix)

You ain't nuthin' but a sweet thang, yeah  
And I'll come back for more everyday  
Feels so, so good to me  
I'm in the mood  
Makes me feel oh, so right  
I'm in the mood, uh huh boy  
I want you forever  
I'm in the mood  
Let's start tonight out right  
You and I bathed in candlelight  
Tasting the wine on your lips  
Touching your body tenderly with my fingertips  
I feel a sweet sensation rushing through my body  
It needs no explaining, it's for your lovin'  
Just dim the lights and ask me what I want, oh baby  
So I can say exactly how I feel  
I'm in the mood, and I hope you feel it too  
Take me away, and I'll come back for more everyday  
I'm in the mood, and I hope you feel it too  
Take me away, and I'll come back for more everyday  
Uh huh huh, boy, I want you forever  
I don't know if you know it or not  
But I'm in the mood  
Let's not spoil the moment, boy  
Unplug the phone so we can be alone  
There is something about your kiss  
That makes me feel like nothing else exists

Let's get into the moment, we won't regret it  
There's so much passion between us, we can't control it  
This is the night that we soon won't forget, oh baby  
I've never been more ready for your love  
I'm in the mood, and I hope you feel it too  
Take me away, and I'll come back for more everyday  
I'm in the mood, and I hope you feel it too  
Take me away, and I'll come back for more everyday  
You ain't nuthin' but a sweet thang, yeah

Uh huh huh, boy, I want you forever
