

# CeCe Peniston, Inside That I Cried

The talks we had on stormy nights I often rushed away  
When you were not in common sight I was held by his embrace  
I gaze and see the pain you feel to think we had to part  
I didn't feel you loved me so I played games with your heart  
It was inside that I cried, it was inside that I cried  
No long drawn out speeches, no sad tear solves goodbye  
It was inside that I cried, it was inside that I cried  
Don't be deceived by what you saw, it was inside that I cried  
You treated me just like a queen, for me that wasn't enough  
You showered me with expensive things but I found a new love  
Mistakes I made were fatal ones, finally I see you cared  
I can't undo what has been done, now I need you, you're not there  
It was inside that I cried, it was inside that I cried  
No long drawn out speeches, no sad tear solves goodbye  
It was inside that I cried, it was inside that I cried  
Don't be deceived by what you saw, it was inside that I cried  
Oh yeah, no more prayers to make for tomorrow  
Our time has slipped away, I feel so helpless  
There's nothing I can do or say to make things better  
It was inside that I cried, it was inside that I cried  
No long drawn out speeches, no sad tear solves goodbye  
It was inside that I cried for you  
Now you're never coming back for me no more, oh baby  
I know, I know, I know, I know that I was wrong  
So you left me all alone, don't go  
Don't be deceived by what you saw  
It was inside that I cried
