Lifeline

Got my heart on an island

Far away out of reach

Didn't believe in relying

On anyone else but me

Til the day that I saw you

In my harbor of love beckoning

It made me wanna go out and swim out

Place my fear of the storm at sea

CHORUS:

Baby throw out your lifeline

I'm sinking baby rescue me, I'm beggin' you

Throw out your lifeline

Shipwrecked with emotion

When you rock the ocean in me

I met you when it was sunny

What about when it rained

It's not all milk and honey

I'm used to feeling the pain

My mind says run for shelter

My heart says too much to gain

By trusting your loving

Knowing how the weather can change

CHORUS

Throw your lifeline out and I'll hang on

Be the chain of love

That keeps us growing strong
