Looking For A Love That's Real

I know you're looking for a love that's real

And if you let me take you there, I will

If it's ecstasy you want, just chill

And if you let me take you there, I will

Boy I've been thinkin'

That I might let you in

So if you're ready

Then take my hand and let's begin

You need a woman

Not a temporary thing

Someone who's gonna love you

Right up until the end

BRIDGE:

And now I'm in love strong 'til I go

And I don't know what this is fo'

And if you do, please let me know

Before I go out of my mind

I want you, I need you, I really love you

I trust you, I believe in you

CHORUS

Don't fight this feeling

I'm in the mood again

I'd be so happy

If you decide to let me in

You got me goin'

Where I never been before

And now I'm wanting you

Baby more and more

BRIDGE

CHORUS (2x)

Oh baby, I'm not over you

I've been hit by love

I got a crazy, crazy love

I know you're looking

For a love that's real

Everytime I see your face, babe

All I wanna do is chill

If you let me

Could it be I'm falling in love with you?

Can't you see the things you to do me?
