

CeCe Winans, It's Gonna Get Better

It's gonna get better
It's gonna get better, better
You're feeling all alone
Your pain is very real
It seems to be no way out
Just look above and deep inside
You can survive
It's gonna get better
Don't give up now please
It's gonna get better
Just stick around
Weeping may endure for a night
But joy will come
There's hope so will you stay
It's gonna get better
It's gonna get better
Please don't throw your life away
You've worth much more than gold
Even though you weren't told
Each day is a gift so live
And watch your miracles unfold
You can survive
Things will really soon get much brighter
The sun is going to shine again
Hang in there and you'll be much stronger
You will survive
It's gonna get better
Don't give up now please
It's gonna get better
Just stick around
Weeping may endure for a night
But joy will come
There's hope so will you stay
It's gonna get better
It's gonna get better
Please don't throw your life away
Love has brought you this far
And it will lead you to that light
It's gonna get better
Don't give up now please
It's gonna get better
Just stick around
Weeping may endure for a night
But joy will come
There's hope so will you stay
It's gonna get better
It's gonna get better
Please don't throw your life away
