

# CeCe Winans, On That Day

The world is movin' much too fast  
Mother's have kids, they outlast  
Young men think it's hard to pass this way  
Everybody's tryin' hard  
To find a world in a life that's flawed  
When each one should be thanking God  
All the way  
I want to see you on that day  
On that day, on that day  
You know I want to see You on that day  
On that day, on that day  
We're chasing wordly vanity  
Some of us living in insanity  
Forgetting our humanity with no way  
Break the bonds that tie your flesh  
Without Him then life is death  
Only He will not transgress there's no way  
Open up your heart and know  
Our debts were paid for long ago  
And love is all we really owe  
(For a way)  
I want to see you on that day  
On that day, on that day  
You know I want to see You on that day  
On that day, on that day
