Cee-Lo Green, Country Love

Listen

Well, I'm extremely cheap

I snore when I go to sleep

The little bit of nothin' have left

I'm strugglin' trying to keep

Your friends may all agree

You could name a million things I'll never be

If you feel like flyin' feel free

You know that you could do better than me

I'm a simple mán

I'm doing everything I can

When God sent you my way

It was the moment my life began

You stood by me through the storm

Well, I was hopin' you'd have my hand

I wish I understood how you were strong enough to understand

'Cause see no one is crazy enough to love me but you

Never thought myself as much to see

Material things don't mean much to me

A good father, husband, and workin' man

Are sometimes so much to see

And all them bills are due

I can't afford to buy you nothing new

We don't talk like we used to

I know that loving me is hard on you

But you know I try

You are the completion of I

As long as we're in love

I'll never be ready to die

We've come such a long way

And sometimes I want to ask you why

You continue to be the only star in my entire sky

Because no one is crazy enough to love me but you

You see, girl you know I try

You are the completion of I

As long as we're in love

I'll never be ready to die

We've come such a long way

And sometimes I want to ask you why

You continue to be the only star in my entire sky

But see no one is crazy enough to love me but you

I want to thank you, yeah
