

# Celeda, The Underground

Let me take you on a trip, just a simple journey  
A journey full of sound and beats  
One that will lead you down, way down  
To the underground, I said the underground  
Where your body begins to tremble  
And your hands become just a little nimble  
The underground  
Now let me see you work  
Let me take you on a trip  
Where the party children are waiting  
And there's no concert playing  
At the underground  
Where you feet can take the flight  
And the DJ makes it right  
The underground baby, the underground  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
If you can hang 'til daybreak, you know you are coming home late  
If you can hang 'til daybreak, you know you are coming home late  
The underground baby, the underground  
Its dark in here, you can feel it all around, the underground  
Its dark in here, you can feel it all around, the underground  
Its dark in here, you can feel it all around, the underground  
Now let me see you work  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance  
Bu bu bump and dance
