

# Celeste, Stop This Flame

My heart goes up  
My heart goes down  
We fall in love  
And we fall back out  
I'll give you anything you want  
Anything you want  
Anything, anything  
Just don't tell me no

You stop it still  
Then you make it rush  
You're like a pill  
That I just can't trust

You tell me to stop but I keep on going  
Tell me to stop but I keep on going  
Tell me to stop but I keep on going  
Keep on, keep on, keep on

You'll never stop this flame  
I will never let you go  
Well, who am I to say  
Maybe by now you should know

You got your somebody calling  
You think you're somebody, don't you?  
I think you're scared of keeping somebody close  
You'll never stop this flame  
I will never let you go

Wasn't it enough?  
Or did I move too far?  
Is it all too much?  
I think I must be mad to give you  
Everything I had  
Everything I had  
Everything, everything but it still went bad

Tell me to stop but I keep on going  
Tell me to stop but I keep on going  
Tell me to stop but I keep on going  
Keep on, keep on, keep on

You'll never stop this flame  
I will never let you go  
Well, who am I to say  
Maybe by now you should know

You got your somebody calling  
You think you're somebody, don't you?  
I think you're scared of keeping somebody close  
You'll never stop this flame  
I will never let you go

Keep away from me  
If you can't withstand my love  
Keep away from me  
Away from me if you think you must  
Keep away from me  
If you can't withstand my love  
Keep away from me  
Away from me if you think you must

You'll never stop this flame

I will never let you go  
Well, who am I to say  
Maybe by now you should know

You got your somebody calling  
You think you're somebody, don't you?  
I think you're scared of keeping somebody close  
You'll never stop this flame  
I will never let you go
