

Celine Dion, Come To Me

I will always love you no matter what
No matter where you go or what you do
And knowing you you're gonna have to do things
Your own way and that's okay
So be free, spread your wings and promise me just one thing
If you ever need a place to cry baby, come to me, come to me
I've always known that you were born to fly
But you can come to me if the world breaks your heart
No matter where on earth you are, you can come to me
Don't walk around with the world on your shoulders
And your highest hopes laying on the ground
I know you think you've gotta try to be my hero
But don't you know the stars you wish upon they fall it's true
But I still believe in you

If you ever need a place to cry baby, come to me, come to me
I've always known that you were born to fly
But you can come to me if the world breaks your heart
No matter where on earth you are, you can come to me
And the seven seas you sail
All the winding road you're on
Leave you lost and feeling all alone
Let my heart be your beacon home
If you ever need a place to cry baby, come to me, come to me
I've always known that you were born to fly
But you can come to me when the world breaks your heart
No matter where on earth you are, you can come to me
