

# Celine Dion, I Knew I Loved You

I knew I loved you before I knew you  
The hands of time would lead me to you  
An evening star was from afar  
It guided me here, it knew you'd be here  
Now wrapped in moonlight at last together  
Here in the incandescent glow we are all we need to know  
As we softly please each other till the stars and shadow glow  
And we sleep with our dreams around us

It guided me, it knew you'd be here  
I knew I loved you before I found you  
I knew I'd built my world around you  
Now all my days and all my nights  
And my tomorrows will all begin and end with you, with you
