

Cellophane, Standing In The Storm

Standing in the storm there's comfort
We don't care what they all say
Strip me down, wrap me up
Use it for the documentary
It's all the same to me
It's something that I've never had
It's something that I'll never have
I know
I know
Turning all my wheels there's beauty
We don't care what they all say
Strip me down, use me up
Wheel me down the road my brother
It's all the same to me
It's something that I've never had
It's something that I'll never have
I know
I know
I know
I know
I know
I know
I know
I know
I know
I know
I know
Well you
Strip me down, wrap me up
Use it for the documentary
They don't care about me they don't care
No I No I No I'm so low
With my horse feet and my horse shit
Let my little darling call me down they wish
My bone they wish my throne
They take from me
The only thing I know
I knew I wish I could sing down
Oh down Oh down we go
Here down we go again
