

# Celtic Frost, Os Abysmi Vel Daath

A pallid sun sheds dimmest glow.  
On mute and pallid soil.  
I am the one, a life long gone.  
A refuge raped in search of life.  
Like a shadow on this earth.  
In embraces pale as human flesh.  
I am unborn, and I'm undone.  
How much of me is lost.  
I deny my own desire.  
Lying one among the liars.  
I deny my own desire.  
Dark in darkness I can see.  
Nothingness is blinding me.  
Os abysmi.  
I'm drowning in this sea.  
For those I loved I hurt.  
So you taketh from me.  
My name untold and numb.  
Where I am there is no thing.  
No God, no me, no inbetween.
