

Cerf, Mitiska & Jaren, Me & You

Can I get your attention please'
It's just that lately I can't sleep
In fact I just can't seem to think about anyone but you
Every time you walk my way
I melt and search for things to say
Just grab my hand let's get away
Just me and you
Please I don't wanna waist this moment
Yeah, it feels so good I can taste it
Don't you wanna take this some other place where we can be alone and
Please I don't wanna waist this moment
Yeah, it feels so good I can taste it
Don't you wanna take this some other place where we can be alone and
Just me and you
Please I don't wanna waist this moment
Yeah, it feels so good I can taste it
Don't you wanna take this some other place where we can be alone and
Just me and you
