

# Cerf, Mitiska & Jaren Pres. Vantem, You Never S

Rejections like an ice cold bath  
but the waters feeling good this time  
and i hate that i misread you boy  
but i cant resist no crossings signs  
when your an open invitation to a heartache  
a painful kinda good i should just leave alone but its too late  
I'm right back where i started i'm not aloud to show just memories  
but i took what i could get from you  
now i'm off to fill the void you see  
i gotta habit i cant break so it does all the breakin  
and a heart that's slow to heal cuz i fall for the ones who are takin  
Well you never said  
You never said that i'm your babe  
You never said  
You never said that i'm the one  
You never said you'd try  
Well that you'd take me or you'd leave me  
You just said goodbye  
You said goodbye  
And you just kept walking baby  
I couldnt stopped you if I tried  
I was such a fool to think it might have lead  
To something fulfilling baby  
And had you been willing maybe  
I wouldnt have these thoughts running through my head  
Well you never said  
You never said that i'm your babe  
You never said  
You never said that i'm the one  
You never said you'd try  
Well that you'd take me or you'd leave me  
You just said goodbye  
You said goodbye
