

Cetera Peter, Faithfully

Some say its just the nature of the beast
When you love somebody so passionately
Time has a way of steeling
That raging fire feeling
Leaving the ashes laying at your feet
Those fools with little faith will never know
Those higher places two hearts can go
Where time is standing still
And love will burn until
The heaven and the earth have come and gone

CHORUS

This fire for you is constant as the morning star
And you will be forever in my heart
As long as river's searching for an endless sea
I will always love you, faithfully
Tonight we'll raise a glass to lovers
Across the ages
We'll hold each other and toast to the day
When history's said and done
And we'll still stand as one
Some things were never meant to fade away

CHORUS

This fire for you is constant as the morning star
And you will be forever in my heart
As long as river's searching for an endless sea
I will always love you, faithfully
