Cetera Peter, The Last Place God Made

Cetera Peter World Falling Down The Last Place God Made I've seen the best of times I've seen the worst of times 'Been around and I've taken my chances (But) I could never be tied down Too many questions--not enough answers

Then I laid eyes on you I knew right there and then This would be more than a passing encounter My fate is bound to yours I've found a cause right here

And if this is the last place God made And yours is the last face I see Just feeling close to you That's good enough for me

We've seen the best of times We've seen the worst of times Been through hell and high water together Diamond bright and tear stained mem'ries These are the times I'll remember forever

If you believe in me--like I believe in you Without a care for the why or the wherefore I will be there for you And you'll be there for me

And If this is the last place God made And yours is the last face I see Just feeling close to you It's good enough for me

If this is the last place God made You know it's the only place I want to be Just feeling close to you That's good enough for me

If this is the last place God made You know it's the only place I want to be Just feeling close to you It's good enough for me
