

CETI, Stolen Wind

I'd like to stop time,
Only for us
Hold your hand, touch your face, you and me yeeaahhh!!!!

Like dust in the wind
or a stolen angel's wing
Like mist in the air, and to be like the wind!

No pain in my heart, I forgive you
In your love I will fall
I believe you
No cold painful heart - in your soul I want to live
Anytime
Be with you
To the end
Of time

Chorus:
Is this world like a beast?
Like a dead rose, and cold human tears
Why do they want to stop us?
Do you know?
There was fear in my heart

No fear in my soul, I believe you
'cause your love's everything!
Yes, I tell you!
I would like
To stop time
Be with you
To the end of my life...
