

Chad Mitchell Trio, Get Together

Love is but the song we sing
Fear's the way we die
You can make the mountains ring
Or make the angels cry
Know that love is on the wing
You need not know why

Come on people now
Get together
Smile upon your brother
And love one another right now

Some may come and some may go
We shall surely pass
When that which has left us here
Returns for us at last
People, we are but a moment's sunlight
Fading on the grass

Come on people now
Get together
Smile upon your brother
And love one another right now

If you hear the song I sing
You must understand
You hold the key to love and fear
It's in your trembling hand
People, one key unlocks them both, you know
It's there at your command

Come on people now
Get together
Smile upon your brother
And love one another right now

Come on, love one another right now
