## Chagani Umair, I've Found

I was all alone When she said goodbye It was the pain of a life-time I just wanted to die I knew not a chance I stood with you But I had to try Thought my love was true (chorus) See It's been way too long And know I must move on Won't again make you my world Cause I've found I've found another girl Wore your scars of love For long enough I'll love her more 'Cause she's not a hore (repeat chorus)
