

Chagani Umair, Katie

You hear the lightning strike
See the look in my eyes
And you know that I'm hurt
Baby you said goodbye
Left me empty inside
Without you I can't survive
(chours)
You're just like other girls
I know
You care for me
And then you let me go
You're just like other girls
I see
You were the reason for my living
Katie
You took away my reasons for living
When you pushed aside the love I've been giving
I loved you more than life itself
You left me for three whole days
End of April 'til the start of May
It was me whom you betrayed
(repeat chorus)
