

# Chaka Khan, Eternity

(Prince)

Seems like an eternity since I've been in your arms  
A multitude of colorless hours pass  
I crave the life inside U, it keeps me from harm  
I only pray that it's not just another God

[Chorus:]

Eternity, I want 2 be with U 4 all eternity  
Darling U be, the only one 4 me together 4 eternity

I long 2 touch U (I long 2 touch U)  
To feel the warmth in a world so cold  
Whenever we (ooh) -- I don't know  
But I want U all the time (I wanna hold on)  
U R the beginning middle and end 2 every story told  
U R the science of my mind

[Chorus]

And it seems like a year away  
That U and I were making love  
One should take life from day 2 day  
But all my dreams R made of  
All my dreams R made of eternity
