

Chaka Khan, Love With No Strings

(Maggie Ryder and Wesley Magoogan)

I, I can't explain
How ya got inside my system
But I feel the sweetest pain
I, I can't do that
But I got to break this tension
If it makes you feel the same

An ordinary woman
That's all I am
And I think I'm falling
For an ordinary man

Take me to your heart
When the love begins
You and I can only try
To make a love with no strings
Take me to your heart
When the story ends
You and I we can't deny
We're making love with no strings
No conductor
Could've played this situation
Better than a fool or millionaire
I won't tie you down
With a little love and affection
All I wanna do is share

A little time together
Maybe holding hands
An ordinary woman
And an ordinary man

Take me to your heart
When the love begins
You and I could say goodbye
And we'll always be friends
Take me to your heart
When the story ends
You and I we can't deny
We got a love with no strings
