

Chaka Khan, Make It Last

(Chris Jasper and Margie Jasper)

Come on and stay with me for a little while
Hey can't we spend some time together
You look so good to me and I like your style
Come on let's make it last forever

I'm not an ordinary woman
I just want to love you with all my might
You better believe that I'm a good one
And I wanna guarantee I'll treat you right

Come on and stay with me for a little while
Come on and spend some time together
Whatever it takes I'm gonna make you smile
Hey can't we make it last forever

I know that love's a gamble
Puttin' all my lovin' on the line
There ain't a man that I can't handle
Give me your love, and I'll give you mine
