

Chaka Khan, Nothing's Gonna Take You Away

(Deborah Ash and Bill King)

You, you carry your dreams in your eyes
And if someone hurts you, you cry
And you, you live on a cloud in the sky
And wish on the stars shooting by

Don't let the little woes of life harm me
Let the joy in the life your lead
Let it charm you
Let it charm you

[Chorus:]

Nothing's gonna take you away
Nothing's gonna break your heart
Nothing's gonna take you away
Nothing's gonna break your heart

You, you go barefootin' when there are showers
You like to listen to coltrane for hours
And you're gonna need someone standing by
And on me you can always rely
