

# Chalee Tennison, Under Your Skin

(Keith Follese/Adrienne Follese/Stephanie Bentley)

I watch in adoration  
Every little thing you do  
The way your smile lights up the room  
The easy way you move  
And then you take my hand in yours  
And then you pull me near  
And in that crystal moment  
My life is so clear

I wanna feel everything you feel  
I wanna touch everything you touch  
I wanna be everywhere you are  
I wanna love everything you love  
I wanna breathe every breath you take  
Be a part of every move you make  
Closer to your heart than anybody's been  
Under your skin

I'm without hesitation  
I give myself to you  
Wrapped up in this emotion  
So deep and so true

I wanna feel everything you feel  
I wanna touch everything you touch  
I wanna be everywhere you are  
I wanna love everything you love  
I wanna breathe every breath you take  
Be a part of every move you make  
Closer to your heart than anybody's been  
Under your skin
