

# Chalk Farm, Live Tomorrow

Time stands still for no one, I'm behind again  
I push and still I see, I'm getting nowhere quick  
I'm staying late, again  
Worlds turn in the time, I catch another breath  
I know a little more will, surely do the trick  
I can't delay, no, I can't be late  
I can't take the time, but I plan to when I 'm done  
I can't waste the day, nothing ventured, nothing  
I don't think it's wise to be idle when you're young  
Oh, I have to go, I'll have time to live tomorrow  
Take a message for me, tell the wife I'm sorry  
Deadline's almost here and there'll be more recitals  
Anyway, there are bills to pay  
I can't take the time, but I plan to when I'm done  
I can't waste the day, nothing ventured, nothing  
I don't think it's wise, to be idle when you're young  
Oh, I have to go, I'll have time to live tomorrow  
I have to go  
Angels spread my wings and see the fences tumble  
Ageless memories they watch the strong man crumble  
At my feet what is this I see  
I can't take the time, but I plan to when I'm done  
I can't waste the day, nothing ventured, nothing  
I don't think it's wise, to be idle when you're young  
Oh, I have to go, I have to go  
And I can't take the time, but I plan to when I'm done  
I can't waste the day, nothing ventured, nothing  
I don't think it's wise, to be idle when you're young  
Oh, I have to go, I'll have time to live tomorrow  
I have to go, I have to go  
I have to go, I have to go
