

Chamber - L'Orchestre De Chambre Noir, Life Goes On

I can't go on like this, you said
life has changed, it's just a dread
once you were such a joyful mate
now you seem a living dead

It's sad, I know,
you're gone
though I'm down
my life goes on

Life goes on
with or without you
Love has got nothing to do with it

Your betrayal has knocked me down
it took my breath, I feared to drown

It's sad, I know,
you're gone
though I'm down
my life goes on

Life goes on
with or without you
Love has got nothing to do with it
that life goes on
with or without you

I thought I've reached the very end,
took the count, no clue at hand

It's true, I know
you're wrong
still I'm down
my life goes on

Life goes on
with or without you
Love has got nothing to do with it
that life goes on
Love has got nothing to do with it
that life goes on
with or without you
life goes on
with or without you
